

#### Mensch und Maschine Software SE

Company Presentation Status May 12, 2021 / Q1 report 2021 / ex dividend

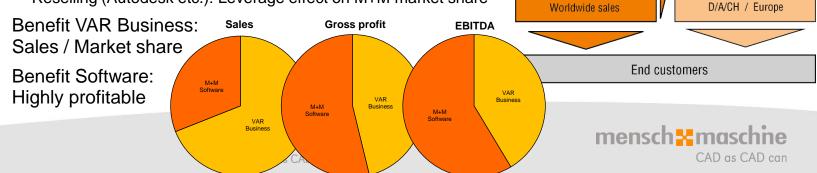

#### **Business model**

Leading developer of CAD/CAM/CAE/PDM/BIM solutions

- CAD/CAM/CAE = Computer Aided Design / Manufacturing / Engineering PDM = Product Data Management / BIM = Building Information Management
- Founded 1984 37 years on market // IPO 1997 24 years public

- M+M Software: Proprietary Standard Software ~65% CAD/CAM // ~35% BIM / Garden/Landscaping / CAE
- VAR Business: Technical Digitalization Solutions
  Proprietary Added Value: Projects / Training / Hotline etc.
  Reselling (Autodesk etc.): Leverage effect on M+M market share

#### **Business model**

Geographical sales contribution: (2020)

- Austria/Switzerland: EUR ~47 mln / ~19%
- Europe (other): EUR ~65 mln / ~27%
  - M+M's own CAM and BIM Software is sold to more than 70 countries on all five Continents
- ~75 Subsidiaries in 22 Countries (Europe, Asia and America)

#### **Business model**

#### Broad industry balance:

- ~2/3 Industry: e.g. Mechanical/Electrical/Process Engineering, Tool/Mold/Die Making, Automotive/Aerospace/Shipbuilding, Hydraulics, Pneumatics, Industrial design
- ~1/3 BIM: e.g. Architecture, Building Services, Structural/ Civil Engineering, Bridge and Tunnel Construction, Infrastructure, Facility Management, Gardening/Landscaping
- Interdisciplinary: e.g. Digital Factory/City, PDM/PLM, Simulation, Plant Design, Visualization/Animation, iBIM

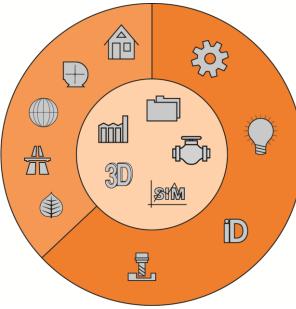

#### Extensive installed base:

>100,000 active seats @ more than 30,000 customers

#### Wide price/performance range:

- Software from <1,000 Euro to >100,000 Euro per seat
- > Pure B2B Business, only professionals, no consumers

CAD as CAD can

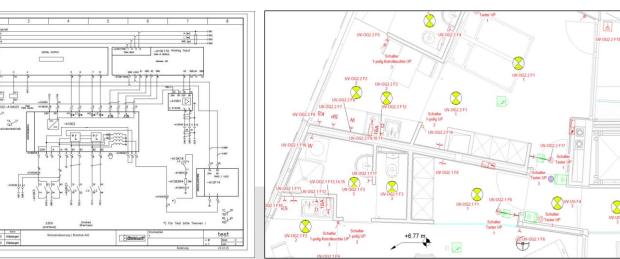

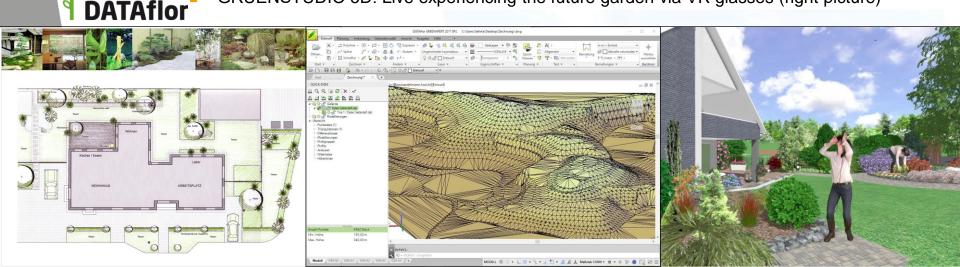

#### CAE – Computer Aided Engineering

- Seat base: ecscad M+M product since 1993, end of 2008 sold to Autodesk, since 2014 licensed back and M+M maintenance till 2019
- Newly developed: eXs fully data- and largely user interface compatible
  - High performance database, more functionality, simpler usability, free configurability
  - For Industry disciplines electrical and process engineering, hydraulics and pneumatics
  - As well as for all building services disciplines in BIM projects (iBIM)
  - For ecscad maintenance customers free automatic license transition

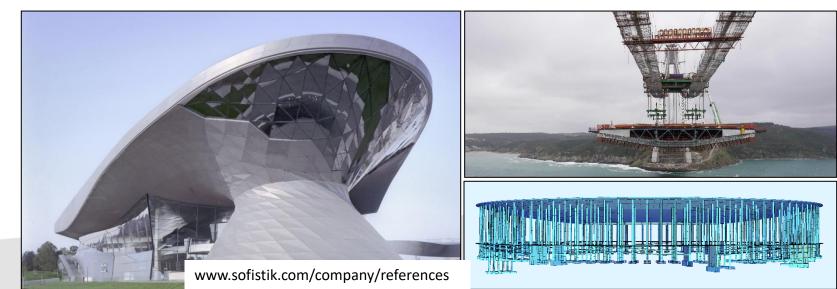

- Gardening / Landscaping / Earthworks for Architects and Implementers
  - M+M Subsidiary DATAflor, Goettingen, Germany
  - Integrated software solutions not only containing graphical planning but also calculation, tender, quoting, construction site controlling and billing
  - Two examples from the extensive functionality:
    - Digital terrain model: Comfortable three-dimensional landscape design (middle picture)
    - GRUENSTUDIO 3D: Live experiencing the future garden via VR glasses (right picture)

- BIM / Civil Engineering: Structural Analysis & Reinforcement Software
  - Jan 1, 2019: Long-standing shareholding in SOFiSTiK AG increased from 13.3% to 51%
  - Share swap, Founders/Management stayed on board with 49% shareholding
  - SOFiSTiK (est. 1987) is a technology leader in bridge, tunnel and building construction
    - In more than 30 years, thousands of construction projects have been realised an calculated with SOFiSTiK software, e.g. BMW-Welt Munich, new Bosporus bridge, Brasilia National Stadium...

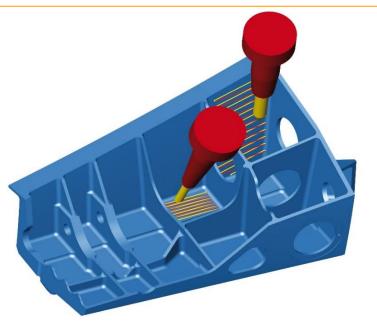

The **SOFiSTiK Bridge + Infrastructure Modeler** supports parametrized 3D bridge, tunnel and other profile building design, detailing and analysis, fully compatible to BIM standards, as it e.g. is mandatory in Germany since 2020 for public projects due to the German Ministry of Transport and Infrastructure.

**SOFiSTiK** 

#### CAM – Computer Aided Manufacturing

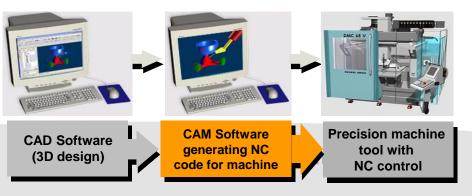

- Subsidiary Open Mind Product line hyperMILL<sup>®</sup>
- High end: Average revenue approx. EUR 30,000 per seat
- CAM is contributing more than 1/3 to M+M's Added Value

Precision machine tools' purchase prices are in the six or seven digit Euro range. *hyper*MILL® reduces milling times by up to 90% through intelligent machining strategies, pushing return on investment for these expensive machine tools to completely new dimensions.

Up to 5x faster material removal by 'helical' roughing. Flat surface finishing up to 10x faster by using special conical cutters with slightly convex curvature. Milling time for this lightweight aerospace part: 2h05min instead of 10h30min => 80% productivity gain.

Total 80% productivity gain: 2h05 instead of 10h30

# Contact point in the center Contact point at the bottom Contact point at the top

78% faster roughing + 90% faster flat surface finishing:

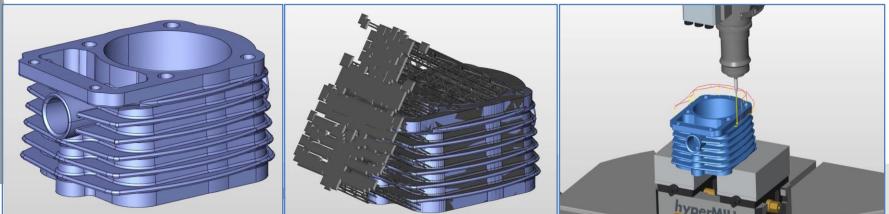

#### CAM (subtractive) meets 3D printing (additive): Post processing of printed metal parts

- 3D metal printers offer fascinating options for lightweight components with internal honeycomb structures or cooling ducts
- Such parts, though, still carry extensive support structures when leaving the 3D printer subtractive processing needed
- To finish (and not to destroy instead) such a delicate structure, the part position must be known in the range of 1/100mm
- Manual alignment takes many hours one of the main productivity barriers for the use of additive production methods
- Automated alignment by hyperMILL<sup>®</sup> (~100x faster) paves the way for an economic use of 3D metal printing

Part with internal cooling ducts ...

... leaving the 3D printer in this shape

Automated alignment by hyperMILL®

### **Some CAM Key Customers**

CAD as CAD can

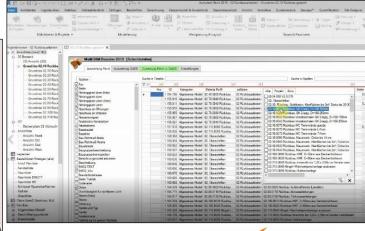

CAD as CAD can

 Example BIM – Building Information Modelling / Management: High efficiency gain in complex interior work projects

Customer: BMS<sup>2</sup> GmbH, Munich, Germany

Example: Data Management for Industry customers
 Connecting design and commercial data by M+M PDM pinpoint

CAD as CAD can

 Example Industry 4.0 meets BIM: convert BIM compatible data (here: automatic climbing formwork on Frankfurt high 4 construction site)

Customer: Doka GmbH, Amstetten, Austria

 Example Infrastructure for Municipalities: The 'Digital City' M+M MapEdit is the data turntable helping Emden (called "Green City by the sea") to reach their ambitious sustainability targets

 Fully automated variant design with customX – up to 90% productivity gain Project examples: Electric distribution boxes & Showcases for gastronomy

Customer:

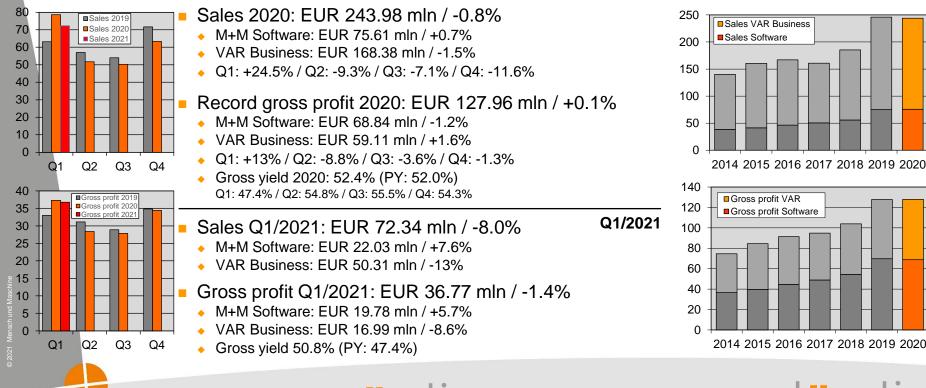

Customer: Bals Elektrotechnik, Kirchhundem, Germany

#### **Review & Outlook**

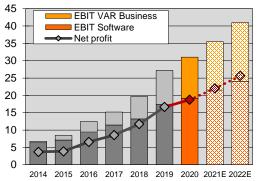

#### **Review on profitable growth:**

- Gross profit 2014-2020: EUR +53.3 mln / +71%
  ✓ EUR +8.9 mln / +9.4% average gross profit growth p.a.
- EBIT 2014-2020: EUR +24.3 mln / +359%
  ✓ EUR +4.05 mln / +29% average EBIT growth p.a.
- Gain 46%: 1 EUR more gross profit >> 46 Cents more EBIT
  ✓ Profit optimized growth through effective cost control management

#### **Clear target: Continuing sustainable profitable growth**

- 2021E: Growth from Q2 onwards (PY retarded by Corona effects)
  - Gross profit +5-8% to EUR 135-138 mln
  - EPS +12-21% to 125-135 Cents / Dividend +15-20% to 115-120 Cents
- 2022E ff: Organic growth + margin potential = economy of scale
  - Sales / Gross profit +8-12% p.a.
  - EPS +18-24 Cents p.a. / Dividend +15-20 Cents p.a.

# Why invest in M+M shares ?

- M+M is a leading vendor of technical software solutions
  - Founded 1984 37 years of established market position
  - More than 30,000 active customers worldwide
  - Private and 24 years public company
- Highly scalable business model / sustainable profitable growth
  - Organic growth (CAGR): long-term average approx. 10% p.a.
  - EBITDA yield 2020 was 16.5% mid-term potential >20%
  - Profit growth target secured by effective cost management
- Good dividend return due to high pay-out ratio
  - Low CAPEX, as the lion's share of software development is not capitalized
  - Founder/CEO Adi Drotleff swapping the majority of his dividend rights to shares every year
